

FITTING INSTRUCTIONS

FOG LAMP COVERS

CONTENTS

- 1 x Front right Fog lamp cover
- 1 x Front left Fog lamp cover
- 2 x Cleaning wipes

Establish that you have correct contents in the kit and determine the position of each part on vehicle before fitment.

FITTING

1. Start by cleaning the surface of the bumper that the fog lamp covers will be applied to, using the cleaning wipes provided (1per side)
2. Make sure the wipe is used in one direction.
3. Please allow 2 minutes for the residue to evaporate.
4. Remove the backing from the tape on the fog lamp cover.
5. Align the fog lamp cover to the fog lamps.
6. Once the correct alignment is achieved apply pressure to the tape area to complete fitment.
7. Repeat the above process for the remaining side.

Please note

Do not wash or allow vehicle to get wet for 24hrs.
