

FITTING INSTRUCTIONS HEAD LAMP COVERS

CONTENTS

- 1 x Front right head lamp cover
- 1 x Front left head lamp cover
- 2 x Cleaning wipes

Establish that you have correct contents in the kit and determine the position of each part on vehicle before fitment.

FITTING

1. Start by cleaning the surface of the headlamp the covers will be applied to, using the cleaning wipes provided (1per side)
2. Make sure the wipe is used in one direction.
3. Please allow 2 minutes for the residue to evaporate.
4. Remove the backing from the tape on the head lamp cover.
5. Align the head lamp cover to the head lamps.
6. Once the correct alignment is achieved apply pressure to the tape area to complete fitment.
7. Repeat the above process for the remaining side.

Please note

Do not wash or allow vehicle to get wet for 24hrs.
