

FITTING INSTRUCTIONS LOWER MESH GRILLE KIT

CONTENTS

1 x Lower mesh grille

FITTING

Note - Make sure the grille area on the vehicle is clean and free from any debris that may affect the fitting of this product.

Start by opening the bonnet of the vehicle (this will help to gain access to the securing tabs)

1. Holding the mesh grille bend the tabs straight (approx 90° angle from mesh)
2. Align the mesh grille with the plastic grille on the vehicle.
3. Place the tabs through the plastic grille on the vehicle (Take care to make sure all tabs pass through correctly)
4. Apply pressure to the mesh grille to ensure it has seated correctly against the plastic grille on the vehicle.
5. Once the correct position has been achieved, bend the securing tabs around the plastic grille on the vehicle.
6. Check security of mesh grille.
